PROFESSIONAL SUMMARY

Results-driven Software Engineer with 3+ years of experience engineering high-scale frontend architectures, multi-channel commerce platforms, and AI-powered workflows. Progressed from Software Engineer Intern to Software Engineer II at Noetic LogistieX, leading frontend design systems, complex state management, and multi-modal AI catalog pipelines. Specialized in React, TypeScript, Next.js, React Native, Tailwind CSS, and ShadCN UI with deep expertise in transforming ambiguous business requirements into high-performance, intuitive software.

TECHNICAL SKILLS

Languages:	TypeScript, JavaScript (ES6+), HTML5, CSS3, SQL
Frontend & Mobile:	React.js, Next.js (App Router), React Native, Tailwind CSS, ShadCN UI, Material UI (MUI), Refine.dev
State & Architecture:	Zustand, TanStack React Query, Redux Toolkit, Context API, Frontend Architecture, Design Systems, NPM Workspaces
AI & Product Workflows:	AI Catalog Ingestion (PDF/Image/Excel parsing), Schema Transformation (Amazon/Flipkart/Shopify), AI Content Enrichment, AI Image Studio
APIs & Integrations:	REST APIs, GraphQL, WebSockets, WhatsApp Business API, Marketplace Data Sync, Multi-Carrier Logistics APIs
Tooling & Best Practices:	Vite, Turbopack, Git, GitHub, Storybook, Postman, Figma, Responsive Design, WCAG Accessibility, Performance Profiling

PROFESSIONAL EXPERIENCE

Noetic LogistieX — Gurugram / Hybrid, India 2025 – Present

Software Engineer II (Core AI Products & Frontend Architecture)

- SellereX USP (AI Catalog Intelligence):** Architected and developed the flagship platform from scratch, designing product workflows and frontend architecture for automated multi-modal catalog creation, validation, and syndication.
- Multi-Modal Catalog Ingestion:** Built intelligent multi-format ingestion pipelines parsing raw PDFs, images, Excel sheets, and vendor catalogs into standardized data contracts with automated attribute extraction.
- Catalog Transformation & Enrichment:** Engineered channel schema transformation engines for Amazon, Flipkart, Myntra, and Shopify, integrating vision/text LLM agents to generate SEO titles, descriptions, bullet points, and keyword taxonomies.
- AI Image Studio Workflows:** Developed intuitive creative generation pipelines enabling sellers to generate high-resolution studio backgrounds and lifestyle imagery from structured product attributes.
- UI Modernization & Design System:** Spearheaded frontend modernization from legacy Material UI to Tailwind CSS and ShadCN UI; architected the centralized SellereX Common component library, accelerating feature delivery speed by 40%.
- SellereX Agency:** Built multi-tenant operational dashboards, syndication matrix status monitoring, and campaign analytics tools for high-volume enterprise agency workflows.

Noetic LogistieX — Gurugram, India 2024 – 2025

Software Engineer (Sellerfront, OMS & Courier Systems)

- Unified Seller Platform & OMS:** Built and maintained scalable frontend architectures for high-throughput multi-channel commerce operations using React.js, TypeScript, Material UI, and Refine.dev.
- Pricing Intelligence & Analytics:** Developed real-time competitive tracking dashboards, dynamic margin calculators, and interactive inventory analytics using TanStack React Query and Recharts.
- Intelligent Courier Assignment:** Engineered automated courier assignment systems dynamically evaluating rate cards, SLAs, destination pincodes, and carrier performance metrics.
- Customer Communication (Intract):** Built customer dispute resolution and communication module integrated directly with WhatsApp Business API and multi-platform data synchronization pipelines.

LogistieX — Gurugram, India 2023 – 2024

Software Engineer Intern (Mobile App & Marketing Web)

- React Native Mobile App:** Developed cross-platform mobile booking and tracking screens in React Native for B2B and B2C logistics operations.
- Barcode Scanner & Dispatch:** Integrated hardware barcode scanner modules and offline-friendly order queueing for warehouse dispatch operators.
- LogistieX Web Platform:** Designed and coded the responsive LogistieX marketing website with interactive courier price

comparison calculators.

SELECTED PRODUCTS & DEPLOYED SYSTEMS

- **SellereX USP** (React, TypeScript, Tailwind, ShadCN UI, AI Pipelines) — Enterprise AI catalog creation, channel transformation, enrichment, and image studio platform.
- **Naicos.ai** (Next.js, TypeScript, Tailwind CSS, Framer Motion) — AI commerce operating system featuring agentic intelligence workflows and editorial marketing.
- **Delverd** (Next.js, TypeScript, Tailwind CSS, Maps API) — Hyperlocal on-demand logistics web platform with live tracking and instant delivery estimation.
- **NoetieX & Studio NoetieX** (Next.js, TypeScript, Tailwind CSS) — Digital headquarters and strategy consulting showcase for AI engineering and commerce growth.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering | First Class
